

This isn't the time to ask, "Is my patient allergic to latex?"

Pulmonary Artery Catheters With NO LATEX COMPONENTS

- Protect patients and staff from potentially dangerous reactions to latex components.
- Uncompromised balloon performance that is equivalent to latex balloons.
- Pricing that will allow you to treat all your patients with catheters containing no latex components.

ICU Medical, Inc. is challenging the use of latex in medicine

Latex reactions are a preventable "Never Event"

Instance of Latex Allergy¹

- 6-12% of the general U.S. population have a latex allergy. (~37 million people)
- 8-17% of health care workers have a latex allergy.
- Up to 68% of children with spina bifida are latex sensitive (related to frequent surgeries with latex exposure).

Symptoms Range From:¹

- Type I: Sneezing, watery eyes, dermatitis, to abdominal cramping, asthma, and anaphylaxis.
- Type IV: T-cell mediated, delayed response, contact dermatitis.
- Between 1988-93 there were 220 cases of anaphylaxis and 3 deaths per year due to latex allergy.

Legal Risks For Hospitals and Clinicians²

- Average cost to attain a defense verdict at a malpractice trial: **\$94,000.**
- Median medical liability jury award: **\$439,400.**
- Punitive awards: **\$22.6 million** on average.
