

TUMESCENT

TUMESCENT DELIVERY SYSTEM

ICU Medical can assist you with vein closure procedures to make them more efficient and ultimately help you save time and money.

**TUMESCENT
DELIVERY
SYSTEM**

- ▶ Each kit contains a polycarbonate syringe to assist in the controlled delivery of Tumescent anesthesia with less hand fatigue.
- ▶ A valved system allows easier administration of fluid while still maintaining access to the tumescent source.
- ▶ There is no need for disconnections to fill the syringe.
